

Armoured LifeVest

The Armoured Life Vest (ALV) is a combined body armour and lifejacket which provides high levels of protection and offers full flotation and self-righting capabilities in water. The outer cover incorporates a detachable flotation collar which provides 150N or 275N of buoyancy by means of gas-inflation.

The outer cover of the ALV is manufactured from a strong nylon fabric which is designed for use in water. The internal face of the cover is manufactured from a spacer fabric which increases ventilation and allows a water to drain from the cover. The cover includes pockets for the front and back upgrade plates.

Options

- Shoulder armour.
- MOLLE webbing for attachment of pouches.
- Badge or logo.
- Pockets for upgrade insert plates.
- Choice of buoyancy level.

Dimensions

The ALV in size Large has a protective area of 0.35m². The weight of a complete vest will depend on the protection level selected.

Protection Levels

The ALV is available in a wide range of HOSDB & NIJ protection levels. Please refer to the Jack Ellis Armour Systems Datasheet for further information.
