

ENHANCED TACTICAL VEST

The Enhanced Tactical Vest (ETV) offers the ultimate in protection with the largest coverage and optimised ergonomics. The standard vest gives protection to the front, back, sides, shoulders, neck, upper arm and groin areas. The groin protector & throat protector can be folded or removed and the upper arm protectors can also be removed.

The outer cover is manufactured from a tough nylon fabric which is available in a range of colours. The inside face of the cover is made from a spacer fabric which promotes ventilation and natural cooling. The cover features MOLLE webbing loops compatible with a range of pockets and pouches. The cover is adjustable at the shoulders and waist in order to accommodate variations in user sizing.

Standard Features

- MOLLE webbing
- Upgrade plate pockets
- Evacuation handle

Dimensions

The ETV in size Large has a protective area of 0.62m². The weight of a complete vest will depend on the protection level selected.

Protection Levels

The ETV is available in a wide range of HOSDB & NIJ protection levels. Please refer to the Jack Ellis Armour Systems Datasheet for further information.
