

TACTICAL RESPONSE VEST

The Tactical Response Vest (TRV) is an overt design which offers protection to a large area of the body including the front, back & sides of the body plus the neck, shoulders and groin area. The collar folds down when not required and the groin protector is removable. The TRV is available in male & female versions.

The cover is manufactured from durable texturised nylon fabric with an inner face of spacer fabric which promotes ventilation and natural cooling. The TRV is adjustable at the shoulders and sides and can be removed quickly & easily when required.

Options

- MOLLE webbing for attachment of pouches.
- Badge or logo.
- Upgrade insert plates.

Dimensions

The TRV in size Large has a protective area of 0.5m².
The weight of a complete vest will depend on the protection level selected.

Protection Levels

The TRV is available in a wide range of HOSDB & NIJ protection levels. Please refer to the Jack Ellis Armour Systems Datasheet for further information.
